WT Docket 03-66; Amendment of Parts 1, 21, 73, 74, and 101 of the
Commission's Rules to Facilitate the Provision of Fixed and Mobile
Broadband Access, Educational and Other Advanced Services in the
2150-2162 and 2500-2690 GHz Bands**

Dear Ms. Dortch:

On October 1, 2004, Nicholas Mastrorilli and Henry Zachs, each of NY3G Partnership ("NY3G"), Darryl DeLawder of DeLawder Communications, Inc., an engineering consulting firm, and Bradley Holmes, a consultant, met with Paul Margie, legal advisor to Commissioner Michael Copps, regarding the above-referenced proceeding.

NY3G talked about its current efforts to provide wireless broadband service to the New York City area. The parties discussed the proposals in the Commission's *Further Notice of Proposed Rulemaking*, and NY3G's ongoing negotiations with Trans Video Communications, Inc., the grandfathered ITFS licensee in New York City. The parties also discussed the proposals that NY3G had previously raised in this proceeding, including the assignment of low-power channels to MMDS licensees and high-power channels to grandfathered ITFS licensees.

Attached is a copy of the diagram distributed at the meeting.
